

# DKS 3-13 Dowel clamp 30020

CE  
12/2021

## Areas of application:

For the single installation of casing pipes (single cable and cable bundles) such as antenna cables, telephone lines and flex s.

## Installation Guide:

- Drill a 6mm Ø hole
- Wrap the DKS around the cable
- Insert the DKS into the drill hole

## Product details:

|                   |             |
|-------------------|-------------|
| Colour            | light grey  |
| Content pack/box  | 200 / 7.200 |
| Clamping range mm | 3-13        |

## Mounting and usage instructions:

Cover the cable(s) with the DKS and insert the DKS into a 6 mm drill hole. Drill. Fasten. Done!

## Product benefits/properties:

Good cable tension options with the DKS. When laid, the strap is barely visible.

## Technical data:
